* A **Level IV** Trauma Center has demonstrated an ability to provide advanced trauma life support (ATLS) prior to transfer of patients to a higher level trauma center.

It provides evaluation, stabilization, and diagnostic capabilities for injured patients.

** **Level I** Trauma Center is a comprehensive regional resource that is a tertiary care facility central to the trauma system.

A Level I Trauma Center is capable of providing total care for every aspect of injury - from prevention through rehabilitation.

*** The **distance** to the hospital is calculated from Highway 77 and Bradshaw Road
